

Fig. 5. Paranasal sinuses and other cephalic components of *Majungasaurus crenatissimus* (FMNH PR2100) based on CT scanning followed by segmentation and 3D visualization. Bone is rendered semitransparent (except in **C**), as is the nasal cavity (airway and olfactory region). **A**: Left lateral view. **B**: Left rostradorsolateral view. **C**: Skull in left lateral view. **D**: Ventral view. **E**: Rostral view. **F**: Dorsal view. Scale bars = 5 cm.
